Coins play a vital role in your victory in [Brawl Stars](#). These are in fact the virtual money you can spend on updating a character or on enhancing its power. When you start the game, you keep collecting the gems. Later, these gems convert into coins. If you have more coins, you can make in-app purchases without using the real money. Coins are also important to update the weapons you are using in Brawl Stars.

If this game isn't running in your country then must check out this [unlocking guide for Brawl Stars](#).

## Uses of Coins in Brawl Stars

There are multiple uses of coins in the game. Without spending coins, you cannot get anything like rewards, unlock brawlers and many other things.

- You can use the coins to upgrade your Brawlers.  
Remember that, you need to only upgrade Brawlers you are playing with. Unnecessary Brawlers' upgrade is useless and spending coins on such Brawlers is a waste of money and time. When you are at the next level, you will see the price of upgrade increases. Again, in the very next level the price increases.
- You can also enhance your power and energy level by using coins.
- Coins also buy different types of skins and Brawl Boxes by spending coins.
- In short, Coin is the virtual currency you can use to purchase everything in the game. The coins can also be used to level up the game.
- There are two types of coins. If you spend Gold coins on Power Points Pool Quota, you can go to the next level of the game.

## How to Get Coins Fast & Free

There are many ways to get coins in Brawl Stars. I am going to share my experience because I use to get coins by following the methods given below.

### 1. Purchase with Real Money

You can purchase the coins by using your real money. Coin packs are available on the in-app store. There are different packs of coins available on the store. You can select a pack you want to use and pay the real money for them. Let say, if you want to get 30 coins, you need \$1.99. If you want to get the pack of 80 coins, it requires \$4.99. In the same way, different packs are available. Use the string of real money to get coins.

## 2. Brawl Boxes

There are different Brawl Boxes in the game. If you unlock them, you obtain coins. You get different numbers of coins by unlocking every Brawl Box. If it is a mighty Brawl Box, you will get a number of coins. In case of a small Box, you get a small number of coins.

### 3. Unlock Brawlers

If you unlock Brawlers, you can get lots of coins due to their fearless moves and action. However, you cannot unlock them until you pay a particular payment i.e. trophies. For example, if you want to unlock NITA, you need 10 trophies. To unlock COLT, you need 60 trophies. So, there are 26 Brawlers you can unlock. The Brawler “NITA” is easy to unlock and she is considered well-experienced in gem collection.

### 4. Mega Box & Big Box

Mega Box and Big Box give you lots of coins. You can get a mega box by spending a few trophies and it gives you 10 draws. However, Big Box is not that much power and it gives you three draws.

### 5. Shop Coin Packs against Gems

You can shop different coin packs from the in-app store by using gems. Every gem gives you some coins. When you start fighting against the opponent team, you keep collecting gems while moving ahead. These gems can be used to purchase coin packs.

### 6. Level Up Brawlers

When you level up Brawlers, you get some surprise rewards. These rewards can be used to raise the number of coins in Brawl Stars.

### 7. Brilliant Performance

If you are an expert player and you are concentrating on the surrounding of your characters while moving ahead, you will

get a large number of gems spread here and there. You can collect them instantly. Your brilliant performance will reward you a large number of surprise coins.

## 8. Collect Gems Rapidly

Remember, when the gems appear on the ground, you need to move fast here and there while shooting your opponents. If you do not collect the Gems for a few seconds, they disappear. So, try to collect the gems rapidly. Later, these gems can be converted into coins. If you have shown a good game, some special Offer Packs appear at different levels. If you want to use the real money to get coins, you will get a special offer at level 5. Don't forget to avail of this offer. Here, you will get 1 mega Box and 80 Gems against \$1.99. In the same way, you will get another Special Offer at level 10 where you will pay \$4.99 to get 1 Mega Box and 170 Gems.

## 9. Agile Movement

Your agile movement is very important if you want to get points and coins in the game. Once you keep moving ahead with agility, you collect a large number of gems. On showing agility, you get gems and some special rewards. If you win the Team battle, you get a reward of 20 tokens besides the gems you collected in the game. In the same way, playing Showdown can give you 2 to 34 gems. On level up, you get 10-20 tokens.

## 10. Tokens & Star Tokens

You earn tokens by playing mini-games in Brawl Stars. Every time you get tokens and you can buy a chest full of coins and power points by spending 100 tokens. So, you can easily

raise the number of coins. Star tokens are considered worthier than simple tokens. You need to spend only 10 tokens to get a chest full of coins and power points. But it is a hard nut to crack to obtain 10 Star tokens in the game.

The best way to collect Star Tokens is to unlock “New Events” and accept the challenge. You can exchange New Events with Big Boxes where you can find three times more items than a Brawl Box. See the image below. This icon shows “New Events.”

## 11. Trophies

When you win different levels with a brilliant performance, you get trophies. Collect trophies to unlock the rewards such as coins, chests, characters and power points. On collecting 50 trophies, you get a reward. There are total 1000 trophies in the game. But they come slowly once you start collecting them. If you collect 150 trophies, you can unlock daily events that can give you lots of coins. On collecting 30 trophies, you

will unlock Showdown. If you are cunning enough to obtain 800 trophies, you can unlock special events where you have chances to get chests full of coins and other rewards.

## 12. Daily Deals

When you play the game on a regular basis, you get some daily deals without spending money. Check “Daily Deals” section in the app-store to know the deal of the day. The store offers one deal free of cost daily. So, it is a great chance to get coins, power points, and gems without spending money.

## 13. Special Events

There are some special events in the game. Here, you bet Event Tickets to get precious rewards. There are three different events known as Boss Fight, Big Game, and Robo Rumble. The event Robo Rumble can give you a high number of coins such as 500 coins per run. So, don't forget to participate in Robo Rumble.

#### 14. Token Doubler

#### 16. Unlock Free Box

Don't forget to check the free boxes on a daily basis. Collect Star Keys and the keys for huge and medium level boxes.

#### 17. Use a Number of Brawlers

suitable brawler. Remember, if you upgrade various Brawlers in earlier levels, it may leave you empty-handed at advanced levels.
